FEB METHOD

FEB Method

1. PLAYERS

"Always there are players who stand out for their technical or physical development. For us the competitive capacity is essential. We neither look for the highest nor to the one that score 30 points, we look for the player that competes for achieving an aim, it can be score, to stop it, or to win a game..."

2.- PLAYERS DEFINITION- ASPECTS OF IMPROVEMENT

"We promote their skills while trying to correct or improve their shortcomings. But we value the player for their virtues and their shortcomings; we understand that we should not ask them to do that for what they are not prepared."

3.- TECHNICAL STAFF

"The profile to be a staff member – Coaches, Biomedical staff, Team manager...- must guarantee values such as basketball knowledge, full dedication, passion for basketball and above all, teamwork capacity. We are talking about Leadership and invigorate teams."

4.- ACTION-PLANNING PROGRAM

"It is essential to equip players with the necessary tools related to the knowledge of the game so they can find a solution in the court. To do this we need to "teach the trade" since its introduction to basketball and subsequent stages"

5.- ENFORCEMENT /EXECUTION

"The training integrates physical preparation, technique and tactic. There are no excuses for, with the means that we have, limited or not, design individualized training sessions for the technical and biomedical practice of our players, to obtain a result of the set. Generating situations most similar to what they will find during the competitions."

6.- COMPETITION

"Our goal is always to compete. We analyzed the qualities of our players and adapt the tactic to their talent. We direct games always considering the importance of referents on the court. The study of the rival and the anticipation of what you will do to enhance your game and what you can do to counteract our script must be in the game. A script should have always alternative plans"

7. ASSESSMENT - EVALUATION

"FEB method is based on "re-start" every year. The successes motivate and make us to be responsible for improving with a view to the future, without falling into the trap of over-analysis to avoid us paralyzing"

EDUCATION VALUES

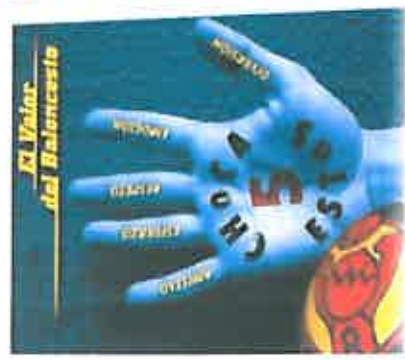

SPANISH BASKETBALL MODEL

BASKETBALL VALUES

Education values

- Integral formation as person
- Collaboration with school teachers
- Collaboration with training coaches

FICHA Nº2 **ESFUERZO**

¿Por qué es importante?
El esfuerzo es la base de todo logro deportivo. Sin él, no se puede alcanzar el éxito. Además, el esfuerzo ayuda a mejorar el rendimiento físico y mental, y a desarrollar la disciplina y la perseverancia.

FICHA Nº3 **RESPECTO**

¿Por qué es importante?
El respeto es un valor fundamental en el deporte. Ayuda a crear un ambiente positivo y seguro, y a fomentar la colaboración y el trabajo en equipo. Además, el respeto es esencial para el desarrollo personal y social de los deportistas.

FICHA Nº4 **EMOCIÓN**

¿Por qué es importante?
La emoción es un componente clave del deporte. Ayuda a aumentar la motivación y el compromiso, y a mejorar el rendimiento. Además, la emoción es esencial para el disfrute del deporte y para el desarrollo de la personalidad.

FICHA Nº5 **DIVERSIÓN**

¿Por qué es importante?
La diversión es un valor esencial del deporte. Ayuda a mantener el interés y la motivación, y a fomentar el trabajo en equipo. Además, la diversión es esencial para el disfrute del deporte y para el desarrollo de la personalidad.

FICHA Nº1 **AMISTAD**

¿Por qué es importante?
La amistad es un valor fundamental en el deporte. Ayuda a crear un ambiente positivo y seguro, y a fomentar la colaboración y el trabajo en equipo. Además, la amistad es esencial para el desarrollo personal y social de los deportistas.

TECHNICAL MEETING NATIONAL TEAMS
MADRID JUNE 15-17-2013

“

We try to see national teams as they are and not as we wish they were, and from that situation, we work in collaboration with regional federations and clubs.

The goal is not to get the obedience of each player but its implication to get the inspiration and armonias necessary so each National Team can reach its maximum performance.

Our greatest illusion is to help the players learn to compete in basketball as they will do later in life.
(ÁNGEL PALMI)

100% objectives achieved

GOALS ACCOMPLISHED

1. Spain maintains European leadership and the 2nd position in FIBA World ranking, being USA the first one in the list.
2. Winning the Gold Medal in last Eurobasket Women 2013 in France, getting direct qualification for the 2014 World Cup in Turkey.
3. Qualifying for in the U17 World Championships in Dubai and Slovat Republic (men and women), due to the gold medals won by U16 teams this summer.
4. The achievement of eight gold medals in 10 championships played is above the target of getting medal in at least half of the championships in which we have participated.
5. Winning the bronze medal at FIBA 3x3 U18 World Championship (Women), in Jakarta, and the 3 medals in individual contests, is the result of the implementation of sports working procedures specific to the development of the 3x3.
6. Arrange targets of improvement with the 360 players
7. Unify working procedures and criteria for the detection and training of players, with clubs and coaches of the National Teams.
8. Development of a project for the creation of training centers and the improvement of the ones that already exist.
9. To keep incorporating new technological tools, to the functioning of each National Team.

It seemed like a utopia after the results of 2012. But the Spanish basketball has shown that growth was possible.

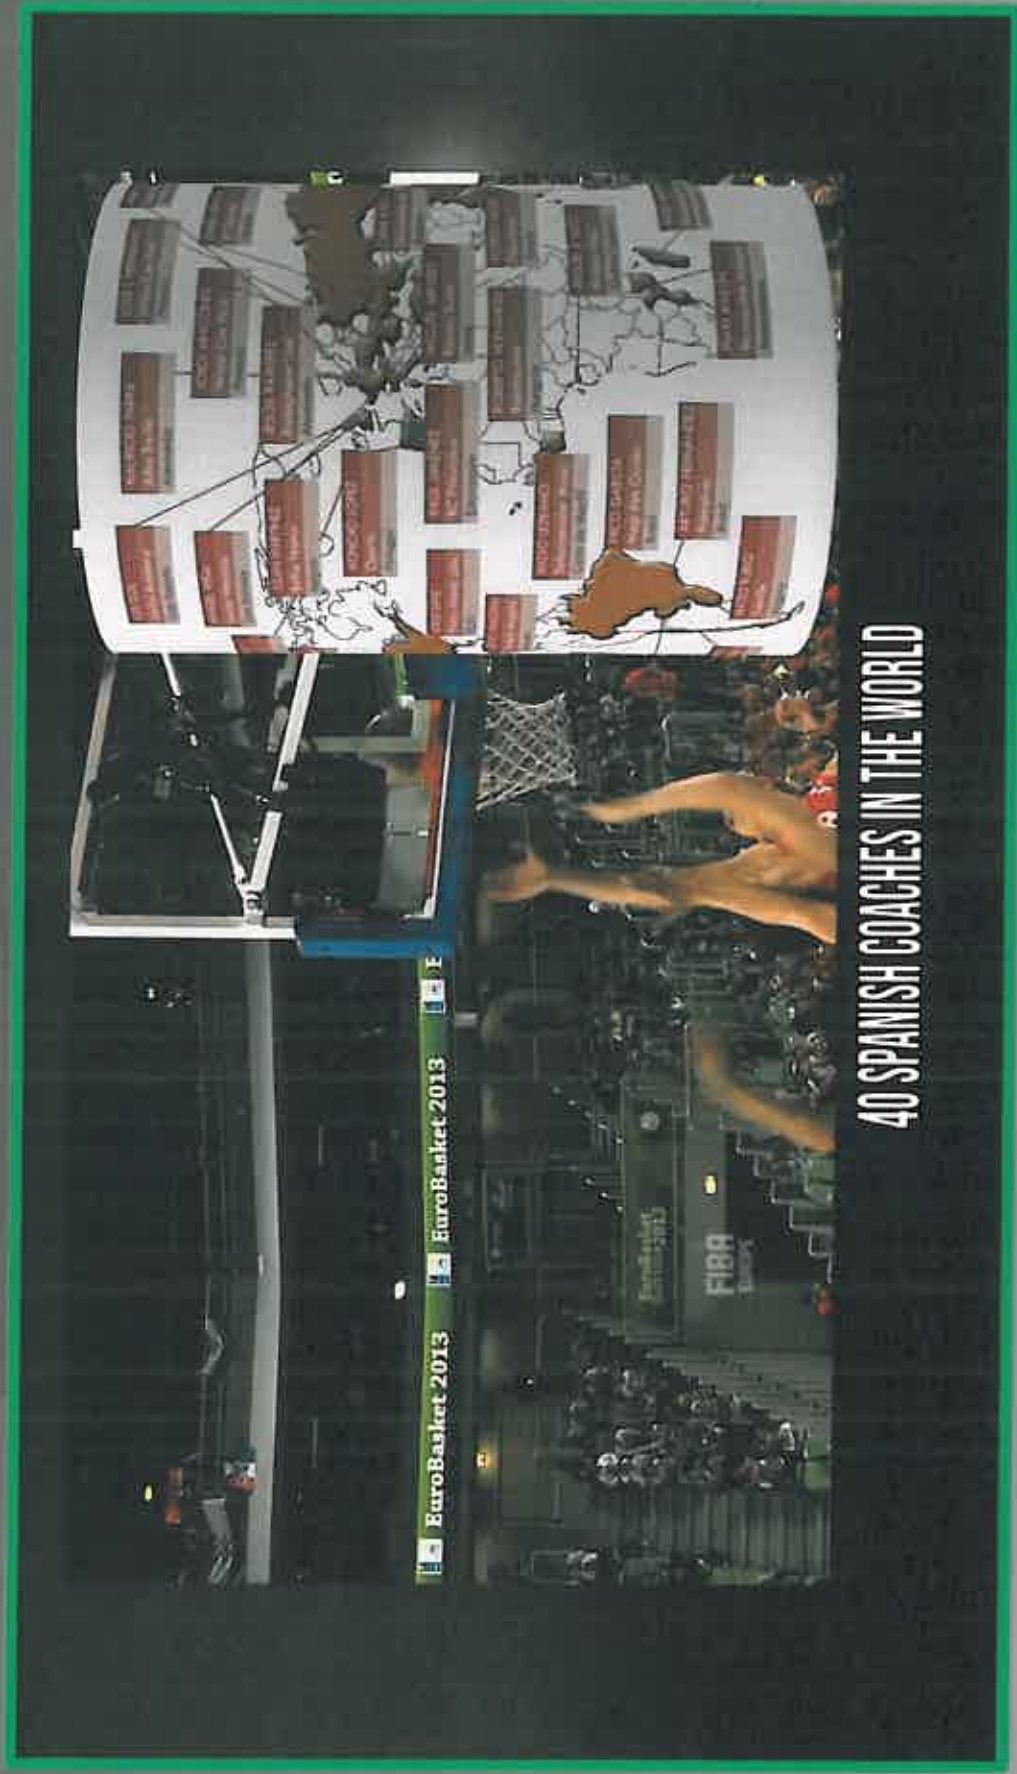

It is satisfying that a star as Tony Parker had declared after his first continental gold medal "now we should concentrate on Spain learning from them to find the way to new victories".

Will remain for history, 4 Gold medals for our Female National Teams, from the Senior title achieved in France to open the summer, to the U16, U18 and U20 without having lost a game in any category.
